

Dr Kathryn Leflay

I am delighted to introduce myself as a member of the LGB in the capacity of Community Governor.

I am a Principal Lecturer at the University of Wolverhampton with a responsibility for recruitment and outreach activities for the Faculty of Education, Health and Wellbeing. As part of this role I am involved in the development of aspiration raising activities for young people from primary to sixth form and I hope to share my experience of this at Reaside. My academic background, industry experience and teaching expertise is in Community Sport and Sport Development. I am therefore passionate about promoting the importance of physical activity for physical and mental health, a vision that I know is shared by Reaside. I have extensive experience of curriculum development and quality assurance that I will also bring to the role.

I am looking forward to working with the team to help with the continuous improvement of the school.
