Analysis 2018-2019

Pupil premium funding has been used for lead teaching assistants, the development for one year of a Nurture teaching approach, learning mentors, SENDCo specialist and various

interventions both inside and outside of the classroom. Use of this funding has impacted on the gap closing between Pupil Premium and Non Pupil Premium children – see table above.

Attainment

- The gap between attainment for PP pupils and all pupils has narrowed significantly for reading, writing, and Maths (in reading – PP 81% v 85%. In writing – PP 83% v 83%. In Maths – PP 79% v 79%)
- The gap between attainment for PP pupils and all pupils has been successfully eradicated for combined reading, writing and maths (all 72% v PP 74%).
- Initial end of Key Stage 2 SATs information suggests that the school has built on its progress achievements from last year (2018 was a lower attaining year group compared to 2019).

Progress

- The % of pupils making expected progress has continued to increase across all subjects. We achieved better than or in-line with (Maths) National Expectations in all subject areas.
- The gap between progress rates for PP pupils and Non PP pupils has continued to narrow significantly in all subjects
