

## Impact of Sports Premium funding outcomes for 2018-2019

Our allocation for the academic year beginning September 2018 was £17,910.00. Using this funding we aimed to embed our sporting culture that has enabled and encouraged all pupils within the school to play and enjoy sport.

### Additional swimming lessons

Using the funding to support additional lessons during the autumn, spring and summer term for all year groups (year 3 – year 6). We increased the percentage of Year 3 pupils who could swim 25 metres from 40% to 65%.

### SPORTS PLUS Coaching

Using our qualified sports coach to support teacher’s professional development has resulted in more pupils working above expected levels in the areas in which teachers received CPD which were gymnastics, dance track and field events. Monday to Thursday after-school clubs run by the sports coaches have also proved to be popular (offers to run Easter/Summer camps), as have the competitions set up throughout the year by the University of Wolverhampton Multi Academy Trust and other local schools. The chart below shows the numbers of pupils at or expected levels of attainment (the figure in brackets is for comparison and shows the previous year’s attainment for the cohort).

In addition our sports coach worked on a 1:1 basis with new staff or with classes where attainment has not reached expected levels.

Year group	Gymnastics	Dance	Track and field
3	82% (85%)	89% (85%)	94% (92%)
4	92% (90%)	92% (89%)	85% (87%)
5	94% (92%)	92% (95%)	90% (92%)
6	88% (90%)	90% (92%)	92% (95%)

### Average across all areas of PE curriculum

2017-2018 – KS2		2018-2019 – KS2	
Performing above expected level	54%	Performing above expected level	67%
Performing at expected level	85%	Performing at expected level	90%
Performing below expected level	10%	Performing below expected level	12%
