Internet warning

A number of parents and children have raised a concern about a new internet phenomenon called the "Momo Challenge". Some have reported that it is a game where children are tricked into performing increasingly violent acts including self-harm, sometimes even culminating in suicide. Many claim the "game" is spreading on social media apps including Facebook and WhatsApp. Other warnings claim she is appearing on YouTube videos featuring Peppa Pig and Fortnite. Momo is usually illustrated by a wide eyed, dark haired woman with creepy facial features. If you have concern about this, please take a look at this for further information

World Book Day 2019

World Book Day takes place on Thursday 7th March and we would like to invite you to join us in helping your child to make the most of this special occasion. As in previous years, we would like to encourage children to dress up as a book character.

In school, children will participate in a special 'Pobble Day' for World Book Day to produce some fantastic writing. Watch out for published authors on Pobble!

World Book Day celebrates the joy and value of books and reading, especially for children. To help get them started on their reading journey, every child will receive a £1 World Book Day Book Token that can either be exchanged for one of TEN special £1 World Book Day books or used to get £1 off any book costing £2.99 or more. You can find out more about the books at worldbookday.com/books. The tokens will be distributed on World Book Day.

Children are never too young to start their journey with books, and the benefits of reading are enormous—so we hope, like us, you will use World Book Day to celebrate it with your child.

Child Safety on TikTok: parent factsheet

TikTok is a video-sharing app. Users can upload and share short videos of themselves lip-syncing to songs or acting out comedy sketches, and add special effects. They can gain followers ('fans') and browse other people's videos.

You may have heard of the app by its previous name: Musical.ly. Everything that was on Musical.ly is now on TikTok. If your child previously had a Musical.ly account, they will be able to access their content on TikTok.

The age recommendation is 13 and above. However, you don't have to prove your age when creating an account, so younger children can still use it easily. It's most popular with under-16s.

TikTok is free to download on Android and iOS devices (Apple phones and tablets). It carries ads and offers in-app purchases. It has about 150 million active users worldwide and is available in over 30 languages.

However, you may have seen news reports or heard concerns about some users harassing children for nude images and videos. If you would like more information, please visit our website (see parent letters) or ask for an information sheet from the school office.
